LIBERSTAD

What's wrong with Unfree World?

What's the issues with the world today?

Can people really change for the better?

Who will we bring with us?

Rule of Authority

Most of the world today is under the rule of Authority.

We are all indoctrinated and brainwashed.

Why are we failing?

Many have tried before us.

We are naïve and think we can play their game.

We must be stronger.

For a Brighter Future

We all foresee different futures... how can we realize our brighter future, together?

bmoney.txt – Wei Dai

“I am fascinated by Tim May's crypto-anarchy. Unlike the communities traditionally associated with the word "anarchy", in a crypto-anarchy the government is not temporarily destroyed but permanently forbidden and permanently unnecessary. It's a community where the threat of violence is impotent because violence is impossible, and violence is impossible because its participants cannot be linked to their true names or physical locations.”

Embark on the Journey

The New Free World embarks on a transformative journey, with one foot anchored in the familiar unfree world and the other in the realm of voluntarism.

It is the construction of new systems and structures that embrace the principles of voluntary exchange, cooperation, and individual liberty.

Breaking Free from Old Mental Constructs

Governments are not real. Their laws, their nations, their financial system—none of these are tangible entities. Instead, they exist solely as mental constructs in the minds of those who believe in them.

You hold the power to believe in these constructs, and it's the act of belief that sustains them. When one ceases to believe, the mental prison that political elites use to maintain control begins to crumble.

The New Free World

In the New Free World, the belief systems and mental constructs that uphold the status quo, such as religion, nations, laws, and financial systems, are relinquished.

They are recognized for what they truly are—tools of manipulation and control, perpetuated by those in positions of authority.

Complete Separation

To ever achieve building The New Free World, we must progress towards a complete separation from the Unfree World.

We must transform ourselves, free our minds and ignore our fears.

Voluntaryism

Voluntaryist principal beliefs stem from the idea of natural rights, equality, non-coercion, and non-aggression

Term coined by Auberon Herbert

A Plea for Voluntaryism

This essay, “A Plea for Voluntaryism,” was completed by Auberon Herbert shortly before his death. It was intended as a sort of manifesto to be circulated for signatures by those who generally agreed with its contents.

World Voluntaryist Organisation

Wrote and published **The Voluntaryist Covenant**

Goal to get many individuals and communities to sign the covenant to spread awareness and recognition.
