Life stance: Voluntaryism

Liberstad (est. 2017) is established on **Voluntaryism**

Members of Liberstad have founded an official life stance in Norway: **Den norske frivillistforening (DNFF)**

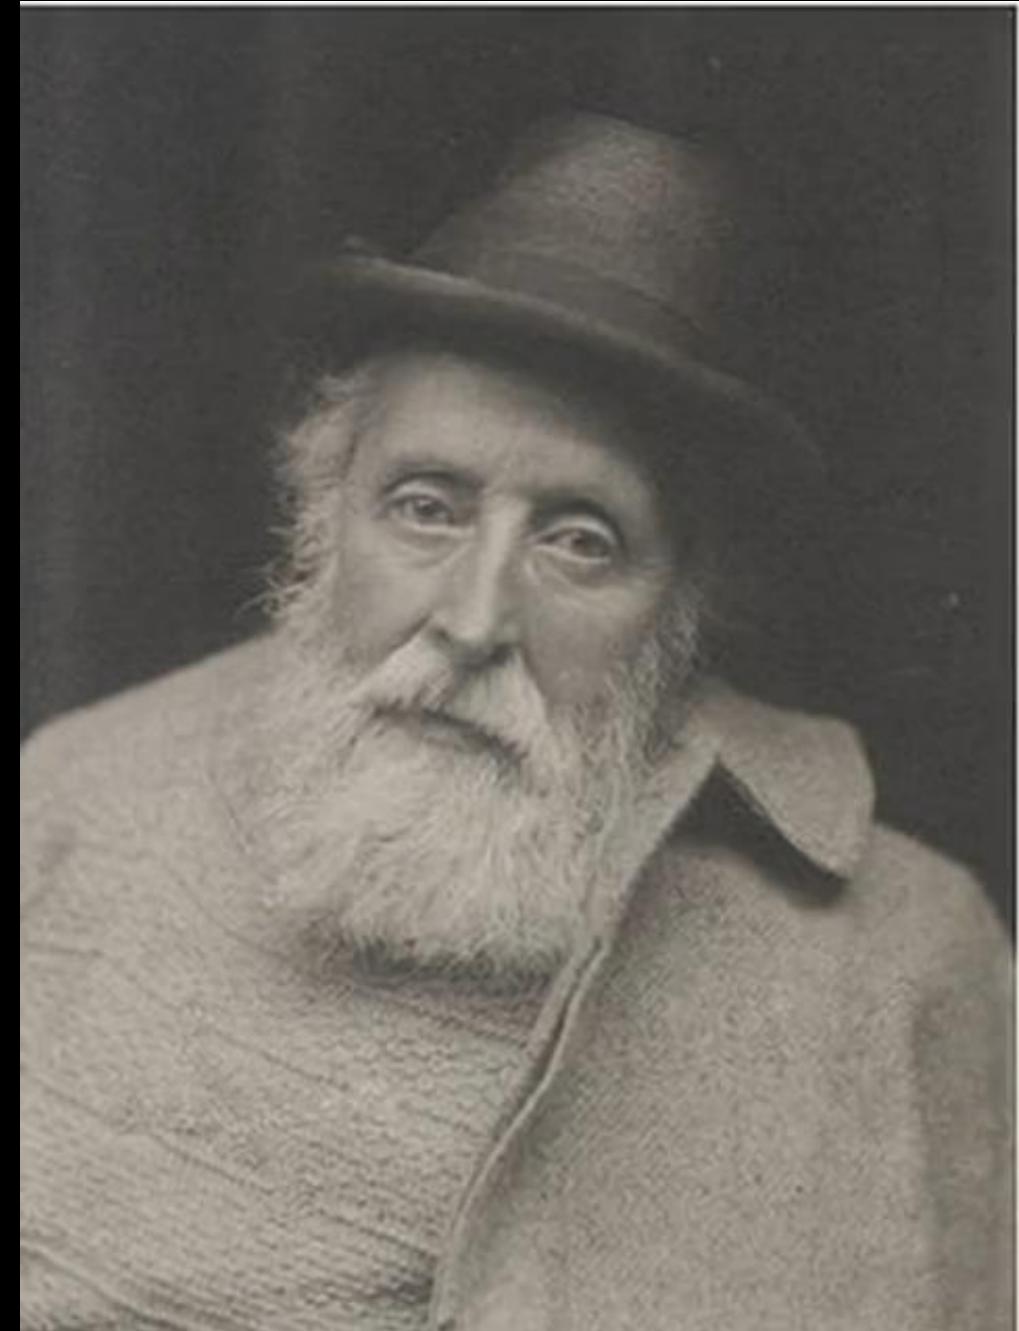

**Self-ownership, Non-Aggression-
Principle, Natural Rights**

LIBERSTAD

Auberon Herbert

“Voluntaryism is the system under which the individual owns himself.”

**Knowing is not
understanding**

LIBERSTAD

History

Describes the philosophy of Auberon Herbert

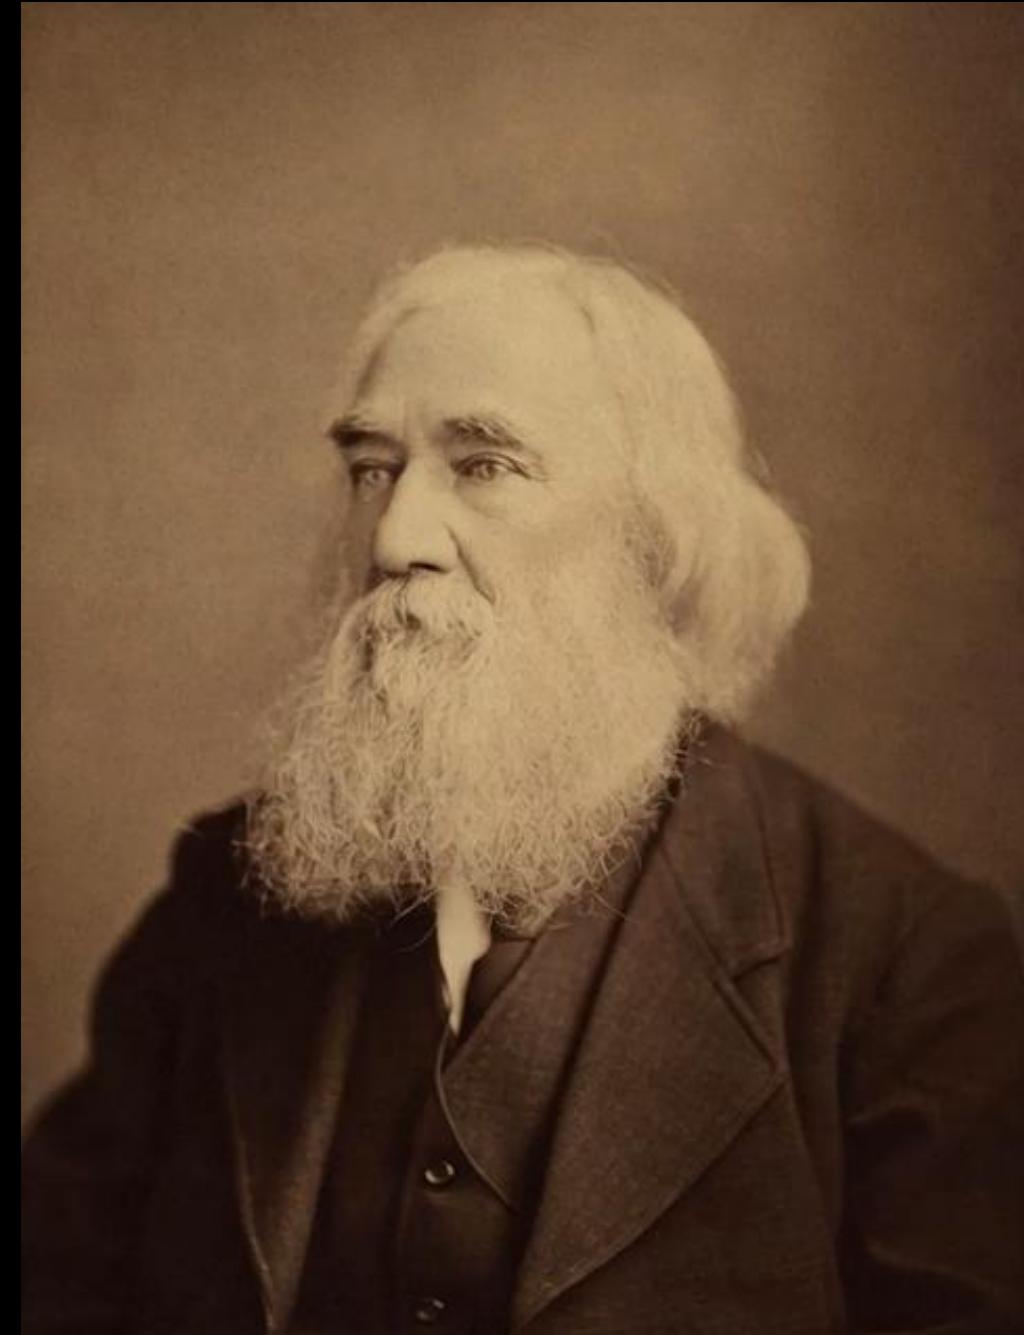

Lysander Spooner is another forefather of Voluntaryism

Distinct from Anarcho-Capitalism (Murray Rothbard), but closely related

Does that mean that Auberon, Lysander or Murray was correct about everything?

Lysander Spooner

“The essence of government is violence and fraud. If it were not so, it would not be government.”

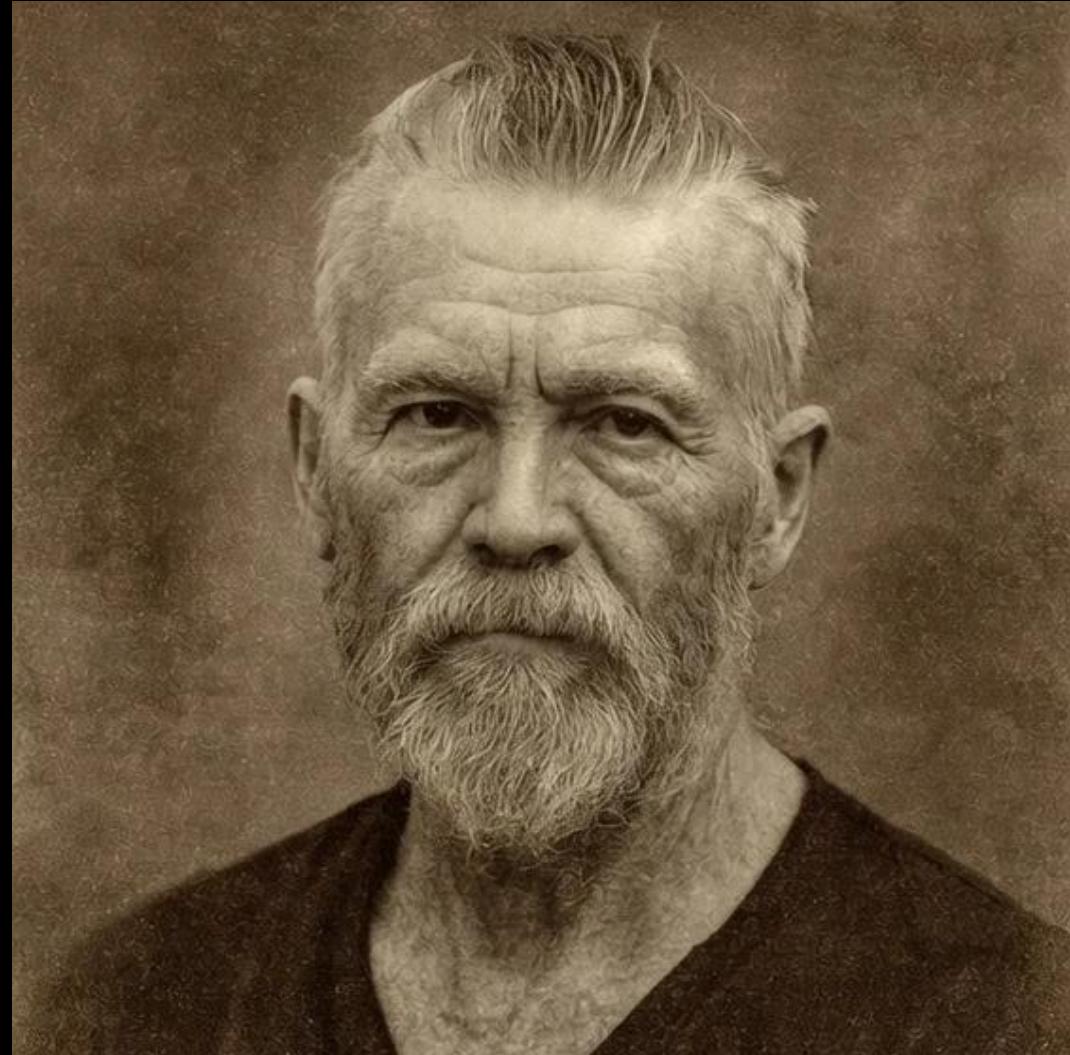

Life, Liberty and Property

- John Locke

LIBERSTAD

Sondre Bjellås

“The ethical position that all human interactions ought to be voluntary”

LIBERSTAD

World Voluntaryist Organisation

Established to bring together initiatives and projects that promotes and builds on Voluntaryism

Author of **The Voluntaryist Covenant**
Sign it as an individual or collective

<https://www.worldvoluntaryist.org/>

Church of Voluntaryism

There is a lack of community gatherings and joint spiritual experience among Voluntaryists

Let's build the Church of Voluntaryism together!

<https://www.worldvoluntaryist.org/church-of-voluntaryism>

Who's responsibility is it?

When you come across something that doesn't work or is broken, or trash in the streets, what is your reaction?

«If it's not your responsibility, it's probably nobodies.»

Take it upon yourself to make a difference, get involved, act to make the world better (*human action*).

Home is where the heart is

Adopt and adhere to the Non Aggression Principle in your own home and family

Teach your family and your kids the principles for Voluntaryism

Extend outwards after you've adopted it fully in your heart

Community

Find your community, find your people

Surround yourself with like minded individuals

Build and grow stronger

LIBERSTAD

Get involved

Volunteer in your local community to promote Voluntaryism

Support Voluntaryist initiatives, content creators, groups, companies and individuals

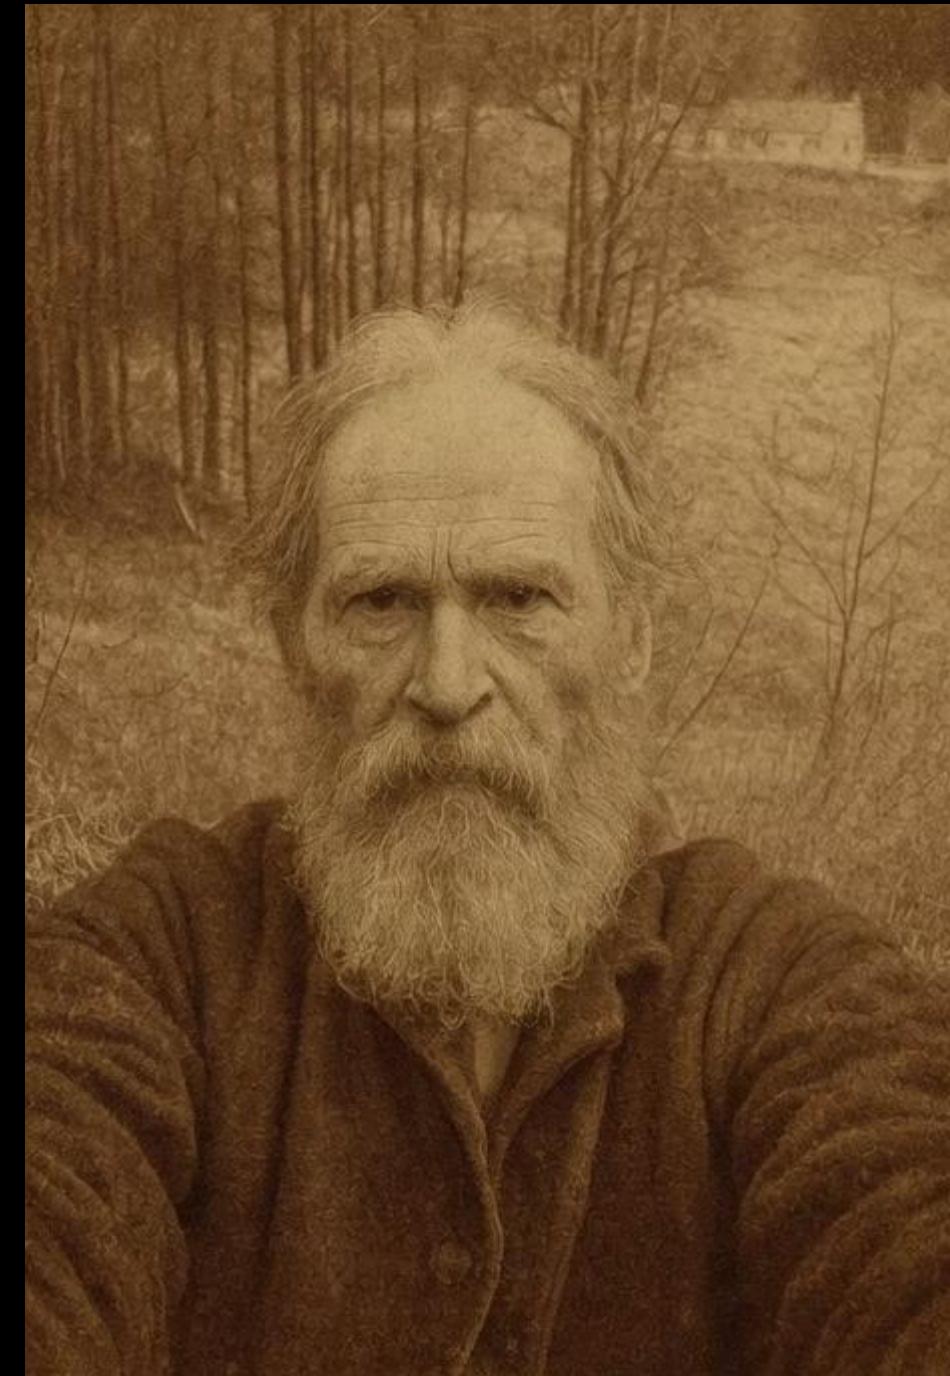

Give money. If we can't depart with our money to the cause of Voluntaryism, what will become of us?

**Understanding is not
adopting**

LIBERSTAD

John Liberstad

“If we can agree not to initiate violence against each other, we don’t need to agree on anything else.”

that's extremely cheap, zap stream seems much cleaner now that free streaming has been disabled. Good decision.

The screenshot shows the Nostria app interface. At the top, there's a navigation bar with icons for back, search, notifications (31), and profile. Below the bar is a video feed showing a man speaking on stage. A large circular profile picture of a man with a beard is centered below the video. To the right of the profile picture are three small circular icons. The main content area features the username "SondreB" with a blue star icon and a shield icon indicating 100 verified posts. Below the username are several contact details: a copy icon followed by a long string of characters, an envelope icon with "sondreb@nostria.app", a lightning bolt icon with "sondreb@coinos.io", and a link icon with "https://sondreb.com". A bio follows: "Founder of Nostria. Founder of Liberstad. Voluntaryism. Decentralize everything." Below the bio are statistics: "Following 268 Relays 4 Badges 5". At the bottom, there are tabs for "Timeline", "Articles", and "Media", with "Media" currently selected. The media section displays three thumbnail images: a portrait of a man with a long white beard, a landscape of mountains and clouds, and a yellow graphic of two hands shaking.

What's the problem?

LIBERSTAD

...AAAAAAAAND IT'S GONE!

How Angor works?

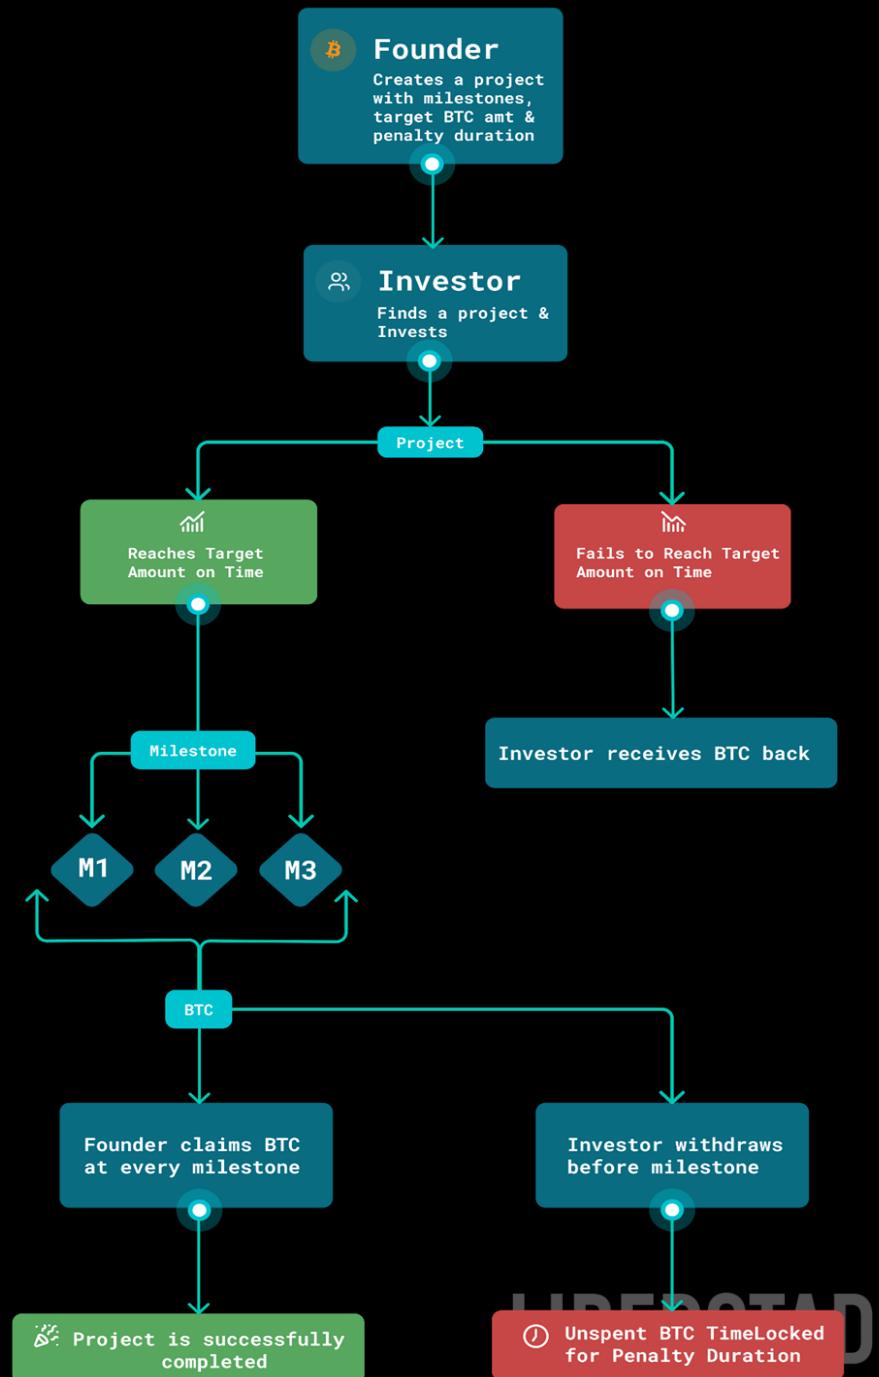

LIBERSTAD

A decentralized funding protocol built on Bitcoin and Nostr

Investor funds are programmed to be released in stages through time-locked contracts.

Each investor can recover their unspent funds at any point, though with a time penalty to prevent gaming the system.

This ensures investor protection, founder accountability, and aligned interests.
